📖 README

Welcome Future-Dr. Elsa!

This is your homepage for your thesis!

To Do Lists

Deadlines

- ☑ set a candidacy date: Nov. 20, 2014
- ☑ get document to committee, Nov. 13, 2014
- ☑ prepare slides: Nov 20, 2014
- ☐ schedule April review

Paperwork

- ☑ candidacy exam form (original signatures!)
- ☐ candidacy milestones to OGE

Usage Notes and Standards

The writing is the repository is private, and represents my work towards my PhD. All TeX documents follow these basic rules:

1. Each sentence gets its own line. Sentences are the basic unit in writing, using one-line-per-sentence allows for easy parsing of diffs.
2. Generated files are generally not included in the repository. The only exception to this rule would be for final documents (aka submitted to an external source).
3. The bibliography is in IEEE style. It is sorted alphabetically (not in order of reference). This is the standard style for IEEE references not in an IEEE publication.
   - I have manually turned on the 6 name maximum (then *et al.* after the first name) in IEEEtran.bst and IEEEtranS.bst
   - I have manually turned off the use of "------" for two entries in a row that have the same author list
